

Lead-Acid/Cars

BCV 12-15 Start

Lead acid charger for stand-by and parallel operation
with overcharging protection, autom. recharge, short-circuit protection and reverse-connection protection. Incl. crocodile clips.

Part No. (EU): 5207372

ALCT 6-24/1

Lead acid charger for stand-by and parallel operation
with overcharging protection, autom. recharge, short-circuit protection and reverse-connection protection. Incl. crocodile clips.

Part No. (EU): 5207343 | Part No. (GB): 5207343/UK

ALCT 6-24/2

Lead acid charger for stand-by and parallel operation
with overcharging protection, autom. recharge, short-circuit protection and reverse-connection protection. Incl. crocodile clips.

Part No. (EU): 5207333 | Part No. (GB): 5207333/UK

ALCS 2-24 A

Lead acid charger for stand-by and parallel operation
with overcharging protection, autom. recharge, short-circuit protection and reverse-connection protection. Incl. crocodile clips.

Part No. (EU): 9164016 | Part No. (GB): 9564006

ALCT 12-3

Lead acid chargers for stand-by and parallel operation
with overcharging protection, autom. recharge, short-circuit protection and reverse-connection protection. Incl. crocodile clips.

Part No. (EU): 5207222 | Part No. (GB): 5607112

ALCT 24-2

Lead acid charger for stand-by and parallel operation
with overcharging protection, autom. recharge, short-circuit protection and reverse-connection protection. Incl. crocodile clips.

Part No. (EU): 5207232 | Part No. (GB): 5607122

Vehicle Power Check

Power check for vehicles
Check charging circuit and battery capacity/battery load. Supervision of charging process for 12 V car batteries

Part No. (EU): 4000002
